

DEWAN NAHIDUL ALAM

Business Data Analyst | Product & Pricing | CLM/CVM Strategy & Insights

Auckland, New Zealand | +64 22 030 9914 | dnaniy@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio Site](#)

PROFESSIONAL SUMMARY

Analytics professional with 5+ years of experience delivering data-driven insights, managing high-revenue product portfolios, and presenting strategic recommendations to C-suite and senior leadership. Proven track record across Telecommunications and E-Commerce, with hands-on expertise spanning product & pricing strategy, customer lifecycle management, campaign analytics, and executive-level reporting. Currently strengthening analytical foundations through a **Master of Business Analytics at the University of Auckland**, combining rigorous methodology with commercial acumen.

PROFESSIONAL EXPERIENCE

Robi Axiata Limited

Assistant Manager, Analysis & Performance | *Jul 2023 – Sep 2025*

- Served as the analytics partner to senior leadership and business teams, producing executive-level reports and ad hoc analyses for the MTs and CxOs reporting, translating complex data into clear strategic narratives.
- Owned a suite of **10–12 recurring reports** and **2–5 on-demand analyses per month** covering customer behavior, campaign performance, and revenue trends across an **18M+ daily user** portfolio.
- Designed and deployed **automated reporting pipelines** that eliminated manual generation cycles, previously requiring hours to a full day per run, enabling business teams and HoDs to independently access up-to-date data without analyst dependency.
- Built dashboards actively used by **Business Team Leads, Directors, and Heads of Department** for regular business monitoring, elevating data accessibility across the commercial function.
- Conducted micro-segment customer analyses, identifying behavioral patterns and campaign affinity, to support strategic decision-making during a period of **3–5% YoY subscriber growth** and **over 10% YoY revenue growth**.
- Identified critical business patterns, built predictive models, and delivered actionable recommendations that shaped campaign targeting and product strategy.

Specialist, Product & Pricing | *Feb 2022 – Jul 2023*

- Managed Robi's prepaid CLM product portfolio, accountable for **BDT 25M+ in daily revenue** and a subscriber base of **over 12 million**.
- Designed and implemented subscriber segmentation logic that drove **churn below 3%**, retaining a significant portion of the prepaid base through targeted lifecycle interventions.
- Led end-to-end product lifecycle management, from consumer insight generation through to pricing, packaging, and launch, for multiple products across different price tiers and customer segments.
- Collaborated cross-functionally with CRM, marketing, finance, and legal teams to align product strategy with subscriber growth objectives as per regulatory body rules.

Daraz Bangladesh (Alibaba Group)

Campaign Operations Executive | *Nov 2020 – Feb 2022*

- Managed **5–8 concurrent brands and products campaigns daily** across Daraz Mall, plus special mega-campaign events, ensuring correct placement, targeting, and brand representation.
- Maintained and grew a **9M daily active user base**, sustaining a flagship store and product **CTR above 3%** consistently, well above the industry benchmark of ~2%, with further uplift during major campaigns.
- Evaluated campaign, brand, and product performance to inform placement decisions and maximize conversion, liaising directly with CRM, design, and marketing teams.
- Monitored and acted on real-time sales and traffic data to dynamically prioritize high-performing products and campaigns across the platform.

EDUCATION

University of Auckland | *Sep 2025 – Present*

Postgraduate Degree — Master of Business Analytics

BRAC University | *Dec 2019*

Bachelor of Science — Computer Science & Engineering
