Graduated Dec 2019

TECHNICAL SUMMARY

Skill / Tool	Experience
SQL	5+ years
Python	3+ years
R	2+ years
Tableau / Power BI	3+ years
Microsoft Excel (Advanced)	5+ years

CAREER HISTORY

Robi Axiata Limited

Robi Axiata is Bangladesh's second-largest mobile telecommunications operator, serving 57M+ daily active subscribers (Robi + Airtel MergedCo) with a full suite of voice, internet, VAS, IoT, etc. services.

Jul 2023 – Sep 2025:

Title: Assistant Manager, Analysis & Performance

Role purpose: Analytics partner to senior leadership — interpreting complex subscriber and revenue data into strategic narratives and actionable recommendations for C-suite and commercial teams.

Responsibilities: Owned a portfolio of 10–12 recurring reports and 2–5 on-demand analyses per month; built automated pipelines eliminating manual generation cycles; produced dashboards used by Directors and HoDs for daily business monitoring; conducted micro-segment customer analyses to support strategic decisions.

Achievements:

- Produced executive-level reports and ad hoc analyses presented directly to Management Teams and C-suite executives, translating complex data into clear strategic narratives.
- Designed and deployed automated reporting pipelines that eliminated manual generation cycles, previously requiring from hours to a full day per run, enabling business teams to access up-to-date data without analyst dependency.
- Supported strategic decision-making during a period of 3-5% YoY subscriber growth and over 10% YoY revenue growth through micro-segment behavioral analysis.
- Won the Star Performer of the Quarter award in Q2'2025 for increasing business operational efficiency through report automation.

Toolsets: SQL, Python, R, Tableau, Power BI, Microsoft Excel, Data Warehouse querying

Feb 2022 – Jul 2023:

Title: Specialist, Product & Pricing

Role purpose: Managed Robi's prepaid CLM product portfolio, accountable for BDT 25M+ in daily revenue and 12M+ daily subscribers, across pricing, segmentation, and product lifecycle.

Responsibilities: End-to-end product lifecycle management from consumer insight generation through pricing, packaging, and launch; subscriber base segmentation; cross-functional collaboration with CRM, marketing, finance, and legal teams.

Achievements:

- Designed subscriber segmentation logic that drove churn below 3%, retaining a significant portion of the prepaid base through targeted lifecycle interventions.
- Launched bundled internet-voice combo packs across price tiers that achieved strong commercial uptake and delivered direct, measurable revenue impact.
- Managed multiple simultaneous product lines across different subscriber segments, balancing revenue objectives with regulatory compliance requirements.
- Won the Star Performer of the Quarter award in Q4'2022 for a significant revenue drive through voice-data combo launch.

Toolsets: SQL, Excel, CRM platforms, campaign management tools

Daraz Bangladesh (Alibaba Group)

Daraz is Bangladesh's and South Asia's leading e-commerce platform, part of Alibaba Group, operating across Bangladesh, Pakistan, Sri Lanka, Nepal, and Myanmar, with over 30M shoppers in South Asia.

Nov 2020 – Feb 2022:

Title: Campaign Operations Executive

Role purpose: Managed brand and product campaigns across Daraz Mall, responsible for placement, targeting, and performance optimization across a 9M daily active user base.

Responsibilities: Managed 5-8 concurrent brand campaigns daily plus mega-campaign events; monitored real-time sales and traffic data; liaised with CRM, design, and marketing teams to ensure correct placement and maximize conversion.

Achievements:

- Sustained flagship store and product CTR consistently above 3%, well above the industry benchmark of ~2%, with further uplift during major campaign events.
- Evaluated campaign, brand, and product performance to inform placement decisions, contributing to sustained growth of the 9M DAU platform.

Toolsets: Excel, SQL, campaign management platforms, CRM tools, analytics dashboards
